Dear Mr Boştinaru, *Dear Victor,*

I would like to thank you, on behalf of my services, for your kind letter of 6th October concerning our work aimed at ensuring that Romania's car tax be made compliant with EU Law. I am aware that the problems caused by the legislation in force at the time of accession have received wide attention from the Romanian public and media.

Commission services dealing with infringements and the European Parliament's Petition Committee both play an important role in ensuring that European citizens enjoy the rights enshrined in the EC Treaty. As shown in this instance, cooperation by both institutions is sure to lead to fruitful results.

Kind regards, *with my best wishes:*
